

Final assignment (MW)

Based on your mathematical interests, type in TeX a short article (approximately 2 pages) that should include the following:

1. Title [3 points]
2. Abstract [10 points]
3. Keywords [5 points]
4. Classification codes [5 points]
5. Introduction (including description of the relevance of the topic, notation, at least two definitions, and at least one lemma) [35 points]
6. A section with main results (it must contain at least two theorems with proofs and a short description of their content) [35 points]
7. Acknowledgements [2 points]
8. References (5-10 items) [5 points]
